The above speaks for itself. From strict inquiry it appears that the benefit from using Keating's Cough Lozenges is understated. The operation was a specially severe one, and was performed by the specialist. Dr. H. T. Butlin, of St. Eartholomew's Hospital. Eince the operation the only means of relief is the use of these Lozenges. So successful are they that one affords immediate benefit, although from the nature of the case the threat irritation is intense.

UNRIVALLED TESTIMONY.

Under date Sept. 8th, 169t, Mr. Hill again writes:

"I should long since have been dead, but for your Lozenges—they are worth their weight in gold. I will gladly see and tell anyone what a splendid cough remedy they are.

Keating's Cough Lozenges the univalled remedy for COUGHS, HOARSENESS and THROAT TROUBLES, are sold in Bottles by all Chemists.

The money was the property of Ardesher Byangee Khrass, manager of the Hotel, and from the evidence it was apparent that the money was stolen from a desk in complainant's room on the evening of the 15th inst. The second defendant had been formerly employed at the Hotel as cook to the Chinese servants, but was dismissed some time ago. Upon Mr Khrass missing the money he sent for the police, who found both defendants on the premises, and while the first was being taken to his quarters to be searched be threw \$42 from the window. In all \$51.85 was recovered. His Worship found the charge proved against the first defendant and sentenced him to twelve months' imprisonment with hard labout. The second defendant was discharged.

LORD Wolseley, commender of the forces in Ireland (says the Admiralty Gizette), recently issued an order opjoining that on occasions of his dining with corps chauspagne is not to be put on the table. His example is likely to be followed by the general officers commanding the various districts in Iraland. This reminds one very forcibly of the famous order issued by Sir Charles Napier on his leaving India. when, in his exhortatory remarks to your offic rs, he alludes in strong terms to the practice of drinking unpaid-for cham-

THE Petroleum Syndicate formed by Sir Lepel Griffin some years ago, is likely to prove as unsuccessful as the Ruby Mines Company. Od in abundance is found in he neighbourhood of Yenangyoung, Burma, but chiefly to the profit of a wellknown Rangoon firm. The allotment acquired by Sir Lepel Griffin's syndicate has apparently proved barren. Advic a from Rangoun state that the search for oil by the employees of the Syndicate has now been aband ned. Operations have been carried on, since November 1890, on an area; in which experts confidently asserted that oil was present in large quantities, but none has been found.

THE Tientain correspondent of the N.-C. Daily News writes under date 4th August: -Much of the country to the north-east is overflowed by water from the breaks on he east side of the river above us. The extent of flooded territory is not so great to the essward as it was two years ago, but all the country lying north of us, beween lines drawn east and west from Tientsin, is in very much the same condiion as then, for a distance varying from 1258 50 to 2 0 li or thereabouts. The water in the river has fallen over a foot in the last week or ten days, and the probabilities are that the immediate danger of further inundation is past

THE British and Foreign Bible Society seems to be in a somewhat serious financial condition, for the deficits of the last four y are amount to no less than £67,263. The committee is making a special appeal for £50,000, and for an increase of £25,0 0 in the annual income of the society. It may, however, be doubt d whether this very large sum will be raised, as so many other organizations are doing work of a similar haracter, and there is room for question whether the simple distribution of copies of the Scriptur a among non-Christian peoples is likely to be productive of any great result. No one would deny that the venerable society has done good work, nut in view of the serious state of its distances it might be well if the committee was to consider whether some alterations ti method and system would not be ad-HOMEWARD BOUND :- Benlomond; July 22; Clensh el, 26; Glaucus Prometheus, vantageous. THE Tamaui correspondent of the Amoy Caledonien, Plintshire, 9; Niobe, Ro. Guette writes: - The gold diggers seem to dock will to the disgings around the Keelung river marshes, but whether very much is secured as a reward for their arduous duties is the question. Many of the mon working in these fields have had a Yokohama on Saturday, Aug. 13, at thorough training in this line of business in California, and the method they use for searching for gold is the same as used in French Mail of July 22, leaves Sings, box tray' all add to make up their paraphernalis, when they move from one and may be expected here on or about unsuccessful spot to try another. When Wednesday, Aug. 24. This packet one buys gold dust, great care is needed, for brass filings have been found by the Chinese to increase the weight of the dust, and to be so near in colour to gold, as to be only detectable by experts. The country around where they work is handsome in the extreme, but as is usual in these pretty spots, the vegetation being rich, malaria is rempant, and the consequence is that many hundreds of these gold neekers die off yearly. Despite this the filds are said to couldin at the present moment nearly 2,000 workers.

Wz have received the following advices of the Foochow Tes market under date of the 5th August :- The export to Europe in 9,958,000 lbs. against 10,883,000 lbs. at the same date last year. The forenight's shipments have been 615,000 lbs. in the calling steamers Orestes and Ownack. The Gleuf win is under despatch, but will probably not: take more than 1 of million lbs. With rather more doing at the close, the market altogether has been particularly quiet during the past fortnight. Only 14.0 0 chests are reported as settled. The inverval has been marked by the receipt of telegraph deales of first shipments to London and Australia, and, as buyers have thus a basis on which work, it is probable that next fortnight's settlements will be larger. Prices have ruled very firm for medium to fine tess, while common grades have been easier. The estimate of supply of second crop | Congou is confirmed and the full shortness should soon be appearing in the figures. With a falling off of 40 000 chests in the first and second crops, it would be reasonable to look for the to al for the season not to exceed 300,000 chests, but it is impossible to get this expectation confirmed by the natives. They seem to think that there will be at least 310,000 chests. The arrivals of Congou to date are 244,000 chests against 277,000 chests at the same date last year. The settlements of Congon to date are 190,000 chests, against 184,0.0 chests to the same date last year. The stock is 53,000 chests, against 93,000 chests on the same date last year, and 164,000 chests in 1890. Exchange is 2/10% for 4 months' eight credits; and Freight to London is 30/- per ton of 40 cubic feet.-N.-C. Daily News.

THE NAU AHKA: A STORY OF

EAST AND WEST. We have received from the publisher, Mr William Heineman, London, a copy of The Naulabka: a Story of East and West, in the production of which Mr Rudyard Kipling collaborated with the late Mr Wolcott Balestier. It might safely enough be presumed, without looking at the book, day, when you suggested the promotion of that so much of it as deals with the West is the work of Balestier and that Kipling is perusal of the story leaves no doubt on this point. The result is a contrast in more than the characteristics of places and people. A striking and very interesting human habitation could be more unlike than Topaz, a 'hooming' town, or rather in the province of Gokral Sectarun.
